

Accessing Transportation Information Online

Pekin Municipal Bus has released a new way for parents to get live location information about the bus your child rides to and from school. **My Stop** is highly compatible tool that will run on PC, Android and IOS. Now you can see the location of the bus enroute to and from school. A mobile version for Android is available from the Playstore and at The iTunes App Store for IOS users. **My Stop** is also available online.

To view online: <https://vtweb.tylertech.com/Pekin/onscreen/MyStop/LoginMobile.aspx>

To download the app - search the app store for **Versatrans My Stop**.

The first time you use the app you will be prompted to select a school. Select **Pekin Municipal Bus**. Then you will be prompted to sign in. You will need to contact your child's school to obtain your username and password. These will be available at registration.

The MyStop mobile app allows the transportation department to "push" messages to users that have installed the app. The app can also alert users if a route is running late. On the days of early dismissal, the live information will not be available.

If you need any assistance using the web site or apps you may **contact the City of Pekin transportation department** at **309.478.5448**.

A link has also been added to the Pekin Public Schools District 108 website. Please visit the Parents Page – Quick Links for easy access.
